

Greetings

Nebraska State Assembly members!

We are very excited for the first live Webinar Workshop for continuing education. The speakers for this live webinar will be speakers not only from Nebraska, but also other states. It's very exciting to be collaborating with other CST's across the US in search of speakers. We are also working with Southeast Community College's Continuing Education department to help with the webinar. The live workshop to be held on August 1st and we hope that all of you are able to join us!

Since this is the first live webinar, I want you to know that things will be done a little different. I will provide detailed directions when needed. Please don't hesitate to reach out if you have questions.

Nominations for the Nebraska State Assembly Tech of the Year Award have been received and will be voted on by the board. The winner will be announced at the workshop on August 1st. This award is given yearly to recognize an outstanding CST for their service and dedication to the profession of surgical technology.

Thank you for your continued dedication to the profession of surgical technology and for everything that you do for your patients every day! We hope to see all of you on the 1st!!

Aeger Primo!

Laura Stallings, BA, CST
